PRODUCT SPECIFICATION METHANOL

Parameters	Typical
1. Purity, % WT on dry basis, % min	99,85
2. Appearance	Colorless transparent liquid free from insoluble impurities
3. Density at 20°C, g/cm ³	0,791-0,792
4. Water miscibility	Mixed with water without signs of turbidity and opalescence
5. Temperature limits: boiling range, °C	64,0-65,5
6. 99 % of the product is distilled within the range, °C, max.	0,8
7. Water contents, % wt., max.	0,05
8. Weight content of free acids as formic acid, %, max.	0,0015
9. Weight content of aldehydes and ketones as acetone, %, max.	0,003
10. Weight content of volatile compounds of ferrum (Fe) as ferrum (Fe), %, max.	0,00001
11. Potassium permanganate test, minutes, min.	60
12. Weight content of ammonia and amine compounds as ammonia, %, max.	0,00001
13. Weight content of chloride, %, max.	0,0001
14. Weight content of nonvolatile residue after evaporation, %, max.	0,001
15. Weight content of ethyl alcohol, %, max.	0,01
